PROFESSIONAL SUMMARY

Final-year AI & Data Science engineer (CGPA: 10/10) with experience building production ML systems at Tata Elxsi. Skilled in end-to-end pipelines—data ingestion, feature engineering, model training, and deployment—with focus on Computer Vision, Deep Learning, and real-time inference.

EDUCATION

S.B. Jain Institute of Technology Management & Research

Aug 2021 – Aug 2025

B.Tech - AI & Data Science (CGPA: 10)

Nagpur

Great Britain High School & Jr. College

Jun 2019 – Jun 2021

Science (96.5%)

Nagpur

PROJECTS

Deep Learning for Terrain Recognition [↗](#)

Apr 2024

Built a **CNN-based terrain classifier** (sandy/rocky/grass/marshy) achieving **95% accuracy** on **8K–10K images**; improved navigation decisions using terrain features (roughness, slipperiness) for real-world robotic deployment.

Real-Time OCR Data Extraction System [↗](#)

Feb 2025

Deployed a real-time OCR pipeline processing live feeds at **30 FPS** with **94.25% accuracy**; automated structured storage in **MySQL (XAMPP)**, eliminating **10–12 hrs/day** of manual entry and enabling analytics.

Next Gen Attendance Monitoring System [↗](#)

Feb 2025

Engineered an automated attendance system with **95% facial detection accuracy**; integrated **Flask REST backend** for real-time database sync, reducing attendance time from **10–15 min** to **1 min**.

Experience

Tata Elxsi

Sep 2025 – Present

ML / AI Engineer

Bangalore, India

- Built end-to-end ML pipelines for weather radar data, reducing data prep time by **85%**.
- Developed LSTM / Neural Network forecasting models achieving **75–80% accuracy**.
- Translated meteorological requirements into ML features with domain experts for production forecasting.

Cluster Computing

Jun 2024 – Apr 2025

Data Analytics Intern

Nagpur, India

- Analyzed large-scale datasets (millions of rows / GB-level) using Python and SQL for business insights.
- Built Power BI and Tableau dashboards, reducing reporting time by **90%**.
- Automated ETL pipelines using Python, saving **25+ hours/week**.

TECHNICAL SKILLS

ML & AI: scikit-learn, TensorFlow, Keras, OpenCV, CNNs, Haar Cascade, EasyOCR, LSTM/RNN

Data & Analytics: Pandas, NumPy, SQL, MongoDB, Power BI, Tableau

Backend: Flask, Streamlit, REST APIs, MySQL, Git, GitHub

Languages: Python, SQL, R, Java, C

Exploring: Transformers, LangChain, Docker, HuggingFace

EXTRACURRICULAR

Forum President (2023–24) – Led technical events and workshops for 200+ students

Event Manager (2022–23) – Coordinated inter-college tech fests and competitions

NSS Volunteer (2021–23) – Contributed 120+ community service hours

LPF Scholar (2021–25) – Merit-based award (4 years)

CERTIFICATIONS

• Data Science – PW Skills

• HTML/CSS/Bootstrap

• Deep Learning – NPTEL

• SQL – HackerRank

• MongoDB

• Django
